1. Sri Gunting Pratama company profile

Sri Gunting Pratama's company profile consists of types of services, products and general information about the company which can be managed dynamically.

Tech stack : PHP using CodeIgniter, MySQL.

The screenshot shows the homepage of PT. Sri Gunting Pratama. At the top left is the company logo and name. A banner at the top right contains navigation links: Home, About Us, Services, Our Products, Contact, and a phone number +62811360010. Below the banner is a large aerial photograph of the company's industrial facility, featuring several large buildings with blue roofs and parking lots. A smaller image of a traditional building is shown on the left side of the page. On the right, there is a section titled "About us" with a brief description and icons for "Company's vision" and "Company's mission".

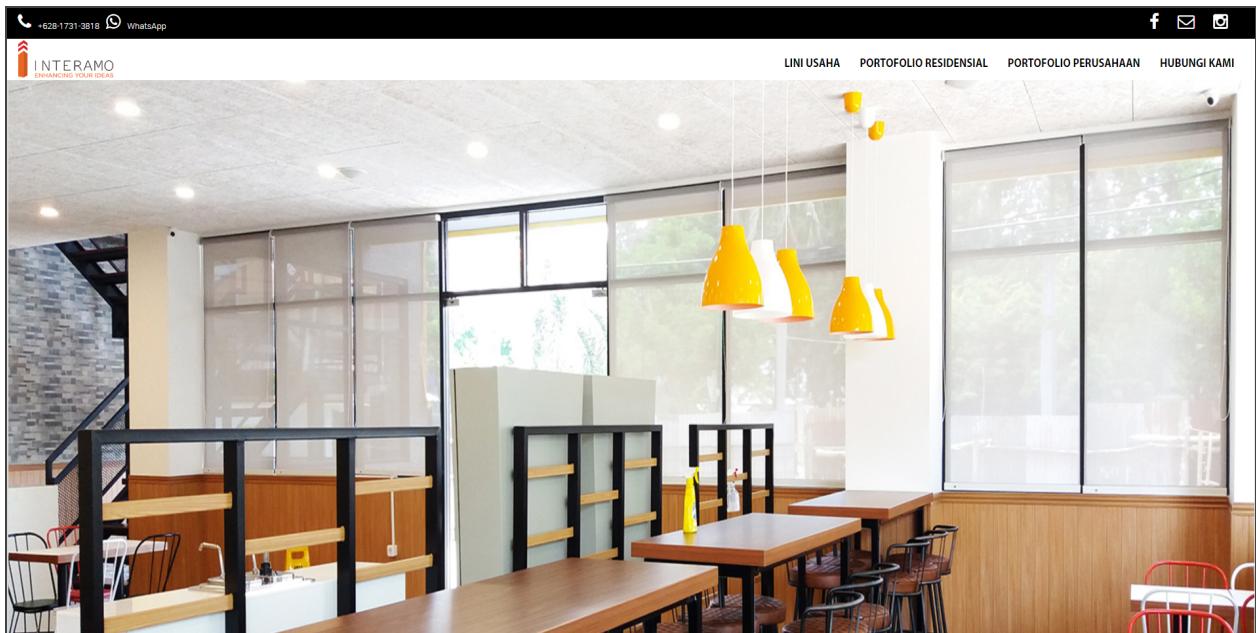

The screenshot shows the company's dashboard under the "Overview" tab. On the left is a sidebar with navigation links: Dashboard, Config, Services, Category, Products, FAQ, Change Password, Company's Website, and Logout. The main area displays three summary boxes: "Customer Visit" (235), "Services" (3), and "Products" (4). Below these are six log entries showing visitor activity:

- New Visit on 18-10-2023 16:27:24

4. Junior baby shop attendance management system

Attendance management systems focused on receive attendance data received from fingerprint hardware ([Solution](#) or [Fingerspot](#)) and manage the data in accordance with the attendance provisions determined by the company. This project was created by a team of 3.

Tech stack : Lumen Laravel, Angular, MySQL.

The screenshot shows the 'Junior Apps' application interface. On the left is a dark sidebar with 'MAIN NAVIGATION' containing 'Dashboard', 'Master', 'Transaksi', and 'Laporan' (with sub-options: Laporan Absensi, Laporan Gaji, Laporan Pinjaman). The main content area has a header 'Laporan Absensi' and a blue filter bar with dropdowns for 'Karyawan' (set to 'Semua Karyawan') and 'Tanggal Absen' (set to '01/01/2017 s/d 01/02/2017'), and a 'Filter' button. Below is a table with columns: Nama Karyawan, Hadir (Hari), Tidak Hadir (Hari), Kerja Hari Libur (Hari), Cuti Pribadi (Hari), Cuti Khusus (Hari), Telat Masuk (Menit), Telat Masuk (Hari), and Durasi Lembur (Jam). The table contains three rows of data: Sofyan Hali Malasugi, Luther Kondo, and Atirah, all showing 0 values across all categories.

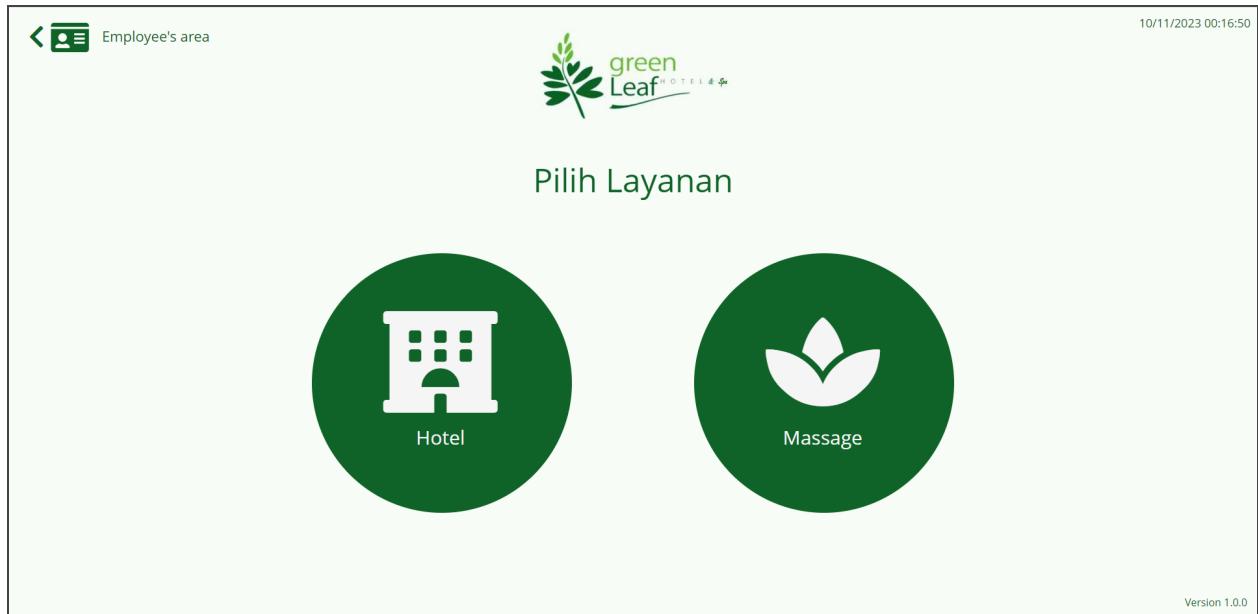

Nama Karyawan	Hadir (Hari)	Tidak Hadir (Hari)	Kerja Hari Libur (Hari)	Cuti Pribadi (Hari)	Cuti Khusus (Hari)	Telat Masuk (Menit)	Telat Masuk (Hari)	Durasi Lembur (Jam)
Sofyan Hali Malasugi	0	0	0	0	0	0	0	0
Luther Kondo	0	0	0	0	0	0	0	0
Atirah	0	0	0	0	0	0	0	0

5. Greenleaf hotel information system

Hotel management systems focus on managing room availability, managing service queues and making it easier for customers to order hotel services. The system also has details of hotel room rentals and F&B sales.

Tech stack : PHP using CodeIgniter, MySQL.

The screenshot shows the "Booking room" form. At the top left is a back arrow icon and the text "Booking room". At the top right is the date "10/11/2023 00:17:19". On the right side, there is a checked checkbox labeled "Konfirmasi". The form contains the following fields:

- Informasi kamar**: A step indicator showing "1".
- Tanggal**: A date input field showing "11-10-2023".
- Jenis paket**: Radio buttons for "Fullday" (selected) and "Short time".
- Paket**: A dropdown menu showing "[Standard] Hotel Full Day, Fulday, Standard (Rp 250.000,-)".
- Durasi**: A duration selector showing "1" and "Malam".
- Nomor kamar**: A list of room numbers: 201, 202, 203, 204, 205, 206, and 207. Room 202 is highlighted in red, indicating it is not available. Room 207 is highlighted in green, indicating it is available.
- Status legend**: A legend showing a green square for "Available" and a red square for "Not available".
- Lanjut →**: A blue button at the bottom right.

Green Leaf

Welcome, ronald

6. Wijaya shop point of sales information system

Point of sales information systems focused on sales order, purchase order and warehouse notes. Also provided user to manage stock of goods, regular customer data, sales reports, and stock report.

Tech stack : PHP using CodeIgniter, MySQL.

The screenshot shows the 'Daftar Nota' (List of Invoices) page of the Toko-ku POS system. The left sidebar has a 'Nota' section with 'Nota Toko' selected. The main area displays a table of invoices with columns: No., No. Nota, Tanggal, Total, Nama Pegawai, Aksi, and Hapus. Each row contains a set of buttons for 'Detail Nota', 'Print', and 'Hapus Nota'. The table shows 6 records.

No	No. Nota	Tanggal	Total	Nama Pegawai	Aksi	Hapus
1	NT07072017INV1	07-07-2017	Rp. 5.111	Agus	[Detail Nota] [Print]	[Hapus Nota]
2	NT07072017INV2	07-07-2017	Rp. 55.000	Agus	[Detail Nota] [Print]	[Hapus Nota]
3	NT16072017INV6	16-07-2017	Rp. 45.000	Agus	[Detail Nota] [Print]	[Hapus Nota]
4	NT16072017INV7	16-07-2017	Rp. 45.000	Agus	[Detail Nota] [Print]	[Hapus Nota]
5	NT16072017INV8	16-07-2017	Rp. 50.000	Agus	[Detail Nota] [Print]	[Hapus Nota]
6	NT16072017INV21	16-07-2017	Rp. 50.000	Agus	[Detail Nota] [Print]	[Hapus Nota]

The screenshot shows a sales invoice from 'Toko Wijaya'. The header includes the logo, address (Pasar Turi Baru Lt. LG Blok B1 No 1 Surabaya), and contact number (HP/WA. 081259213798 / 081216255980). The invoice details are as follows:

No	Banyaknya	Nama Barang	Harga	Jumlah
1	1 Biji	Bak USA 20 Summo	Rp. 10.000	Rp. 10.000
2	1 Lusin	Baskom DX 10	Rp. 45.000	Rp. 45.000
				Jumlah
				Rp. 55.000

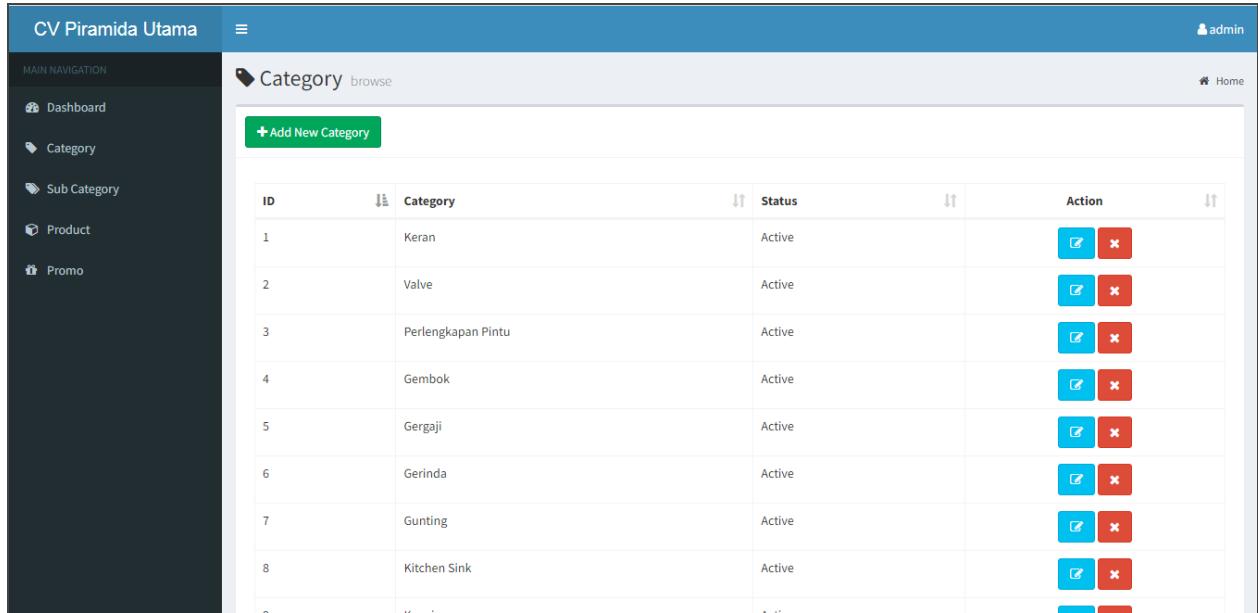

Below the table, there are two signature fields: 'Tanda Terima' and 'Hormat Kami', each with a placeholder '(_____)'. The background features a red diagonal graphic.

7. Piramida Utama and Karunia Distribusi Utama digital product catalog

Digital product catalog focused on manage and display company products to mobile apps.

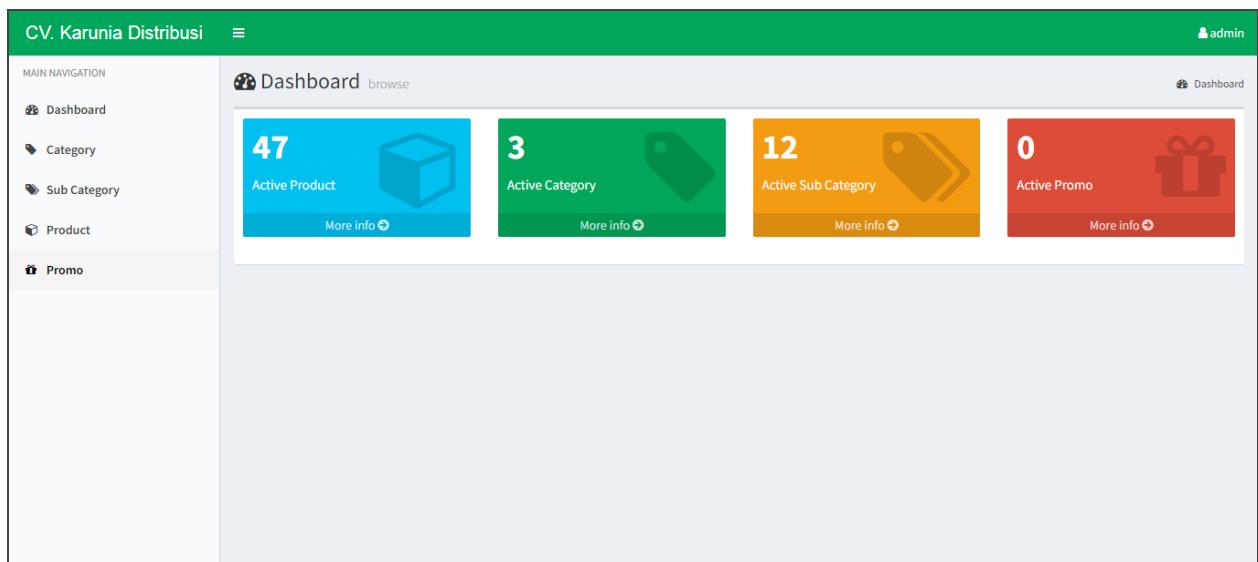

Also displaying latest promo in mobile apps.

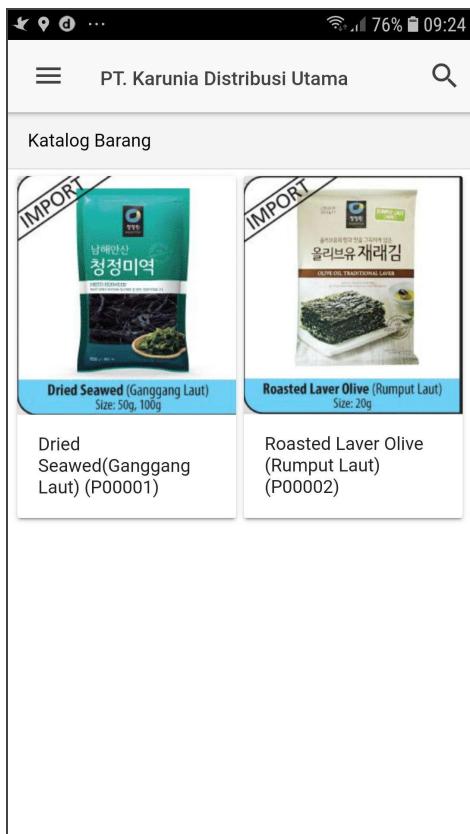

Tech stack : PHP using CodeIgniter, MySQL, Angular, Ionic for mobile app.

This screenshot shows the 'Category' management page for CV Piramida Utama. The left sidebar contains a main navigation menu with links for Dashboard, Category, Sub Category, Product, and Promo. The right panel title is 'Category browse'. It features a green button '+ Add New Category' and a table listing eight categories:

ID	Category	Status	Action
1	Keran	Active	 
2	Valve	Active	 
3	Perlengkapan Pintu	Active	 
4	Gembok	Active	 
5	Gergaji	Active	 
6	Gerinda	Active	 
7	Gunting	Active	 
8	Kitchen Sink	Active	 

8. Indocell company profile

Indocell's company profile consists of types of services, products, partners and general information about the company which can be managed dynamically.

Tech stack : PHP using CodeIgniter, MySQL.

9. Babylon Distributor sales information system

Sales information systems focused on sales order, purchase order and warehouse notes. Also provided user to manage stock of goods with variety of sizes, regular customer data, sales reports, and stock report. This project was created by a team of 3.

Tech stack : PHP using CodeIgniter, MySQL.
